Open QuickBooks for Windows software

- Make sure it's the latest version, choose **Help > Update QuickBooks**
- Restart QuickBooks
- Choose **Company > Export Company File to QuickBooks Online**
- Sign in with the User ID and password for QuickBooks Online and select the company file name

- Progress Invoicing (*Sign up for QBO Tips/Tricks to learn the workaround!*)
- Receiving Partial POs
- Labor Costing
- Online Bill Pay
- Sales Orders
- Group Items or Assemblies (Inventory add on, or Lettuce when it's integrated)
- IIF import
- Price Levels
- Using Letters, i.e.: Collection Letters, Credit Letters, etc

Converting is Easy!

Export to QuickBooks Online

Where should we put your company file?

Replace my existing QuickBooks Online company

Create a new QuickBooks Online company

Looks good!
We'll take it from here.

We're transferring your file now

When it's done, we'll send you a confirmation email.

Import limitations w/details: <http://bit.ly/convertQBO>

- Transaction Targets – must be less than 350,000 targets (F2 to check)
 - was limited to files less than 250 MB
- Import within first 60 days
- Cannot convert QB file with multiple currency turned on
- Inventory requires additional preparation

- Inactive customers, vendors, accounts with open balances are now active again
 - Convert as inactive (deleted) if no balance
 - Inactive Employees/Items convert as inactive regardless of balance
- Other names – now on vendors list and missing in payee field on checks
- Custom fields for customers, vendors or employees do not import
- No Customer types
- 'Sales Rep' is now a custom field in QBO

- Payroll *
- Inventory groups
- Memorized reports
- Price Levels
- Budgets
- Sales Form Templates
- Full Details by Task: <http://bit.ly/convertQBO>

**Some Payroll data converts now, see next slide...*

Most payroll items in your QuickBooks desktop edition data file are converted to QuickBooks Online.

- **Transactions and payroll accounts:**
 - Converted in order to balance your books
 - Details behind the transactions (*such as payroll item breakdown and employee year-to-date numbers*) **does not convert.**
- **Paychecks and liability payments:**
 - Convert as regular checks
 - These checks do not convert to the QBO Payroll module. But during QBOP setup, you will have opportunity to enter YTD amounts.
- **Liability refunds, adjustment transactions, and opening balance transactions:**
 - Those that affect accounts convert to journal entries.
- **Information about employees:**
 - **Most** is converted, and most payroll information does now convert, including some payroll items, rates, deductions, and payrolls schedules.
 - After you convert your data, you can sign up for QuickBooks Online Payroll and walk thru the payroll setup interview for all employees, company items and history.
 - You will then be ready to create paychecks and manage your payroll through Online Edition.
 - When you set up payroll, you are asked if another payroll system was previously used. Choose yes. This will allow you to enter year-to-date information for each employee and report any previous liability payments.
 - **How to Video:** http://bit.ly/import_ee_payroll

Fix Data Integrity Issues

- Verify/Rebuild Data (*did someone say qbwin.log? ☺*)
- Create/Restore Portable Company File

Condense Data

- Available in US versions only
- File > Utilities > Condense Data (in QB 2012 or newer)

Do-over (i.e. purge data)

- Change the URL:
<https://qbo.intuit.com/c28/app/homepage>
- Change it to:
<https://qbo.intuit.com/c28/app/purgecompany>

Start Fresh – Lists Only (Excel Method)

- Desktop file can be referred to as needed
- Export Lists from QB desktop
 - File > Utilities > Export Lists
- Account Listing to Excel from Sample Company (Detail Type)
- Clean up in Excel
- Import in QBO
 - Gear > Import Lists
 - Customers
 - Vendors
 - Chart of Accounts (Detail type)
 - Products / Services List

Start Fresh – Lists Only (IIF Method)

- Desktop file can be referred to as needed
- Create New DESKTOP file from IIF lists
 - File > Utilities > Export Lists
- Use Add/Edit Multiple List Entries to clean up lists
- Use Desktop Converter tool to import 'clean' file in to QBO

- Tip: Use the condense tool to erase inactive list entries before converting to QBO (you will have to enter a dummy transaction for this to work)

Verify reports

- Profit & Loss
- Balance Sheet

Important:

- Ensure date range is **ALL Dates** in both QB desktop and QBO
- **Accrual** basis

Other reports

- A/R and A/P
- Sales or payroll tax liabilities

Things to Do After Converting

- Payroll – set up payroll items, employees, YTD payroll
 - Most employee info and items convert!
- Sales Tax converts completely!
- Inventory — Inventory takes prep! *Don't do it unless you fully understand the prep!*
- Reconcile
- If needed:
 - Customize reports
 - Recurring transactions
 - Customize templates
- Set up users
- Set closing date password

After attending this course you should be able to:

- Understand how to convert from QB desktop to QuickBooks Online
- Learn about the limitations of converting
- Understand alternatives to converting
- Identify things to do after converting
