ProLine Tax Online®
An Intuit ProLine™ Solution

Introduction

ProLine Tax Online is a Software-as-a-Service, web-based product that lets tax professionals prepare and e-file 1040 and business forms. ProLine Tax Online provides an innovative easy-to-use data entry and review process designed specifically to streamline preparation, maximize confidence and increase productivity. And with no upfront costs, no hardware maintenance and affordable pay-as-you-go pricing, ProLine Tax Online helps you better manage your cash flow during the season.

Key Features & Benefits

- Serve a wide range of clients with forms support across Federal 1040 and all individual States, plus 1120, 1120s, and 1065 business returns.
- Save time with no software installation, set-up or updates required.
- Get up to speed fast with an easy to learn and use interface that follows the tax flow—enter data, review data, check results, and file.
- NEW! Save significant time in data entry by automatically downloading and importing 1099 client data (sold separately).
- Save time with automated calculations and diagnostics powered by Lacerte Tax—and reduce the risk of rejected returns from the IRS.
- Access securely anytime, anywhere through any PC or Mac.
- Save money and better manage cash flow with low cost software—no upfront licensing fees and flexible pay-as-you-go pricing includes federal, state and e-file.
- Gain confidence data is always secure and backed up with the latest encryption technology and protection by firewall-protected web servers and password-protected websites.
- Engage better with technology-enabled clients with electronic taxpayer authorization on e-filing and electronic billing.
- Transfer data quickly with free data conversion available for ATX, Drake, GreatTax, Lacerte, ProSeries, ProSystem fx, TaxWise, TaxWorks, TurboTax, UltraTax CS.

What's New for Tax Year 2010

- 1040 for All States for tax year 2010.
- Business forms, including states for tax year 2010 for 1065, 1120 and 1120s.
- Updated navigation, enhancing the user interface to create a better, more streamlined experience.
- Enhanced data entry, including auto-fill, W-2 auto-calculation, notes and status.
- Multi-user capabilities to better enable work with other preparers in the office or working remotely.
