

ProLine Tax Research®

An Intuit ProLine™ Solution

Introduction

Intuit ProLine Tax Research powered by BNA, part of the [Intuit ProLine Portfolio of Products](#), is Intuit’s dynamic tax research library. In alliance with BNA, ProLine Tax Research offers robust content conveniently embedded within both Intuit’s tax programs, [Lacerte](#) and [ProSeries](#), for easy access. ProLine Tax Research enables tax professionals to find the right answers quickly through the use of “follow-me” technology and attach research results directly to their client’s file with one click. Starting in Fall 2010, tax professionals will also be able to access ProLine Tax Research via the Internet anytime, anywhere from their computer or a variety of mobile devices, including iPhones, BlackBerrys and Droids.

With Intuit ProLine Tax Research, tax preparers can access more than 1.5 million sections, articles, charts, letters, court cases, and documents from Federal and state expert summaries, including code, regulations, publications, and rulings.

In addition to researching the latest tax laws, rules and regulations for their clients, practitioners using ProLine Tax Research have the ability to capture a full-page view of the research results and attach them to the Lacerte or ProSeries professional tax return. This one-click attach feature helps practitioners document the reasons for the decisions they make and keeps the data intact as a potential audit trail for seven years.

Key Features

Find the Right Answer Quickly

Intuit brought you reliable tax preparation and now, in conjunction with BNA, brings you reliable research.

Saves Time Through Direct Integration With Lacerte and ProSeries

The context-sensitive integration of Intuit ProLine Tax Research into Lacerte and ProSeries through the use of “follow-me” technology can save users hours in efficiency gains.

Saves Money and is a Great Value

Accountants can save hundreds of dollars with ProLine Tax Research by getting an unlimited subscription without any additional cost for network or multiple users or paying per usage.

Availability

Intuit ProLine Tax Research is embedded within the tax year 2009 and tax year 2010 releases of Lacerte and ProSeries. Current Lacerte and ProSeries users can upgrade to Intuit ProLine Tax Research at a reduced rate.

Pricing

Intuit ProLine Tax Research powered by BNA offers flexibility to meet your research needs in two convenient ways:

Unlimited Annual Subscription (no extra fees for users or networks)	\$849.00
Pay Per Use	\$19.95
