

Quicken HealthSM Expense Tracker

Quicken Health Expense Tracker is a free, online tool provided to members through participating health plans like CIGNA that will transform the way people manage their healthcare finances. The product helps you easily understand medical statements and claims so you can feel confident and in control of your healthcare finances. With Quicken Health as your guide, you'll never look at medical expenses the same way again, and that's a promise.

Organize Everything All in One Place

Quicken Health Expense Tracker replaces confusing paperwork with information that is securely retrieved from your insurance company and provider and organized all in one place. Intuit's "Design For Delight" home page creates a simple dashboard to guide you through managing your medical expenses. Even if you change health insurance companies, you can still use Quicken Health Expense Tracker to access your information in a single location.

Know How Much You Owe and Why

Quicken Health Expense Tracker shows you the math behind the bills in clear, easy to understand steps and does the calculations for you. It even alerts you when an insurance claim needs attention or has an outstanding balance. The "Claim Assistant" feature walks you through each claim to check its accuracy and provides a step-by-step issue resolution process with suggestions on who to call and what to say whenever benefits are denied.

Be Sure You're Not Paying More than You Should

Eighty percent of medical bills contain an error¹. Quicken Health Expense Tracker will automatically spot medical billing errors so you can swiftly resolve any unnecessary charges. It helps you budget what you are spending on medical bills so you can easily determine how much to put into your flexible spending account each year. It also helps make tax time easier by calculating your total medical spending.

Easily Pay Your Medical Bills Online

Now that you know what you owe and have confidence it is the right amount, you can easily settle your bill electronically right from inside the product. Quicken Health Expense Tracker lets you avoid delayed payments by instantaneously paying doctors and medical facilities conveniently online with a credit or debit card.
