

Quicken Medical Expense Manager 2.0 ~ Fact Sheet

"Due to monumental family problems, our medical bills were in arrears for almost a year. It was not due to a lack of money, or insurance, we just got to the point where we couldn't make heads or tails of the mess. After using Quicken Medical Expense Manager, I was able to recover \$385 from medical overpayments and identify incorrect insurance payments. In just one month, your product has paid for itself 10 times over. Version 2.0 is even more superb with its perfect concept, easy entering of expenses and improved reports. The people responsible for this product deserve a week in Hawaii!"

Overview

The U.S. healthcare system is complex, confusing and hard to navigate. More and more, people are being forced to take a more active role in managing their own healthcare, yet they are not given the tools or resources to do so effectively. Quicken Medical Expense Manager 2.0 helps people navigate the financial aspects of the healthcare system - giving them clarity, control and peace of mind.

It is now easy to organize even the heaviest loads of medical paperwork, create a complete family medical history, track expenses, find tax deductions, identify overpayments and manage disputes – all in one place.

Product Functionality

Understand the paperwork and keep track of spending. Make sense of confusing medical bills, prescription costs and complicated insurance documents. Each time you enter a bill, you'll know immediately what to do next: send a payment, wait for insurance, or start asking questions. Calculate how much you're spending on healthcare and gain insight into specific questions so you can make better spending decisions.

Pay only what you owe. Quickly identify overpayments, find and dispute billing errors, track out-of-pocket maximums, know when you've met your insurance plan deductibles, and take full advantage of medical tax deductions (including mileage).

Your complete family medical history and important insurance information – at your fingertips. No more messy shoeboxes or folders. Track medical and prescription history, past bills and payments, and contact information in one place! Receive pop-up reminders for prescriptions and appointments. View important information in a calendar view. Armed with your database, the playing field is now level when disputing with insurance companies or providers.

Manage complicated insurance situations. Stay on top of all stages of insurance claims. Track payments across multiple insurance companies (up to five – including Medicare). Make the most of your Flexible Spending Account.
