TurboTax Basic Step-by-Step Guidance

TurboTax® Basic guides taxpayers step-by-step through their return. The software asks easy-to-understand questions in plain English, then instantly places the information onto Internal Revenue Service-approved forms. Updated with the latest tax laws, TurboTax double-checks for errors and flags potential audit risks. Finally, TurboTax helps taxpayers electronically file their tax return (fees apply) and provides confirmation from the IRS that their return has been received.

- **Improved! Easily handles big life changes**

- ✓ Guides taxpayers through common life changes, including buying or selling a home, new dependents and new jobs.
- ✓ Lets taxpayers know how changes in their tax situation will impact their taxes and where it will be covered in TurboTax.
