

TurboTax 2009*

Like GPS for taxes. Easily guides taxpayers to their maximum refund.

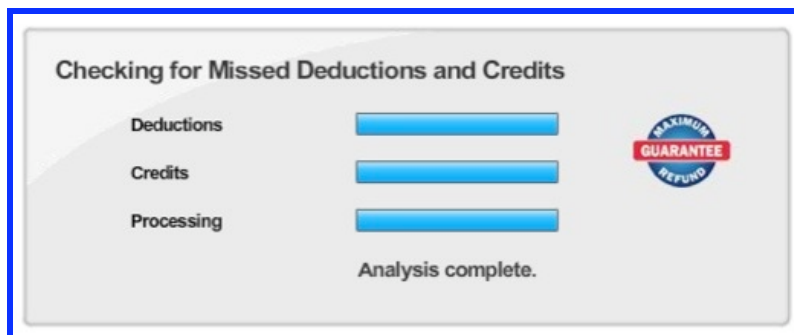

Step-by-Step Guidance

- Economic Stimulus: 95% of Americans could benefit from the 2009 economic stimulus package. TurboTax guides taxpayers through every deduction and credit they are entitled to, including the stimulus, so they aren't leaving any money on the table.
- Shows customers exactly how much money they are saving with each deduction and credit along the way so they can feel confident they are getting the biggest possible refund.
- A new summary screen at the end of the deductions and credits shows customers the immediate impact on their bottom line.

No Wrong Turns or Detours

- Real-time error check immediately catches errors and missed information so customers can fix errors as they go or come back later when they have their information in hand.
- New bookmarking allows taxpayers to flag areas of their return so they can quickly and easily come back later.
- Double-checks taxpayers returns for commonly missed deductions and credits so customers don't miss important credits such as the earned income tax credit. An estimated 5.6 million eligible taxpayers failed to claim this credit, potentially missing out on as much as \$4,600.

Instant Answers Along the Way

- Get answers to questions when and how customers need them.
- Want to speak with a tax expert on the phone? "Ask a Tax Expert" lets customers ask an unlimited number of questions for a one time flat fee.

- Get instant answers from other TurboTax users and TurboTax tax experts online from TurboTax Live Community.
 - Last tax season 6.8 million customers interacted with TurboTax Live Community
 - The top 5 answers are on every screen for amazing relevance, no searching needed so that taxpayers can get the answers to their questions as quickly and easily as possible.
 - Click here to visit [Live Community](#) now.

Audit Support

- Audit Risk Meter: Identifies common audit triggers – like a home office and rental property – and provides actionable guidance to help reduce a taxpayer’s audit risk before they file.
- FREE Downloadable Audit Support Center: Provides step-by-step guidance on everything a customer needs to know in the unlikely event that they are contacted by the IRS.

Maximizing Customer Refunds

- Customers can make the most of their refund by splitting it between multiple accounts so they know exactly where their money is going or purchasing a Savings Bond with all or a portion of their refund to help them save for the future.
- New, customers can easily sign up for Mint.com, the leading online personal finance web site, which will alert customers when their refund has been deposited into their bank account and help them make the most of their money.
- New, the TurboTax Refund Card, a pre-paid debit card, is a new option for customers to get their refund quickly, particularly for the over 20 million unbanked Americans.

TurboTax Online FREE Edition

- TurboTax Online FREE Edition comes with Audit Support, Live Community, e-mail and chat support and a streamlined interview that lets taxpayers finish their return in less than one hour.
