

QuickBooks® Enterprise Solutions Relieves the Pressure for Natural Gas Business

“QuickBooks Enterprise Solutions is a very user-friendly program. When we switched from Peachtree it only took us about a month to get everything fully up and running on the software. And now it takes minutes for us to complete tasks that used to take hours.”

Carole Rayburn
Accounting Supervisor
Energy Meter Systems

Customer Profile:

- Manufacturer of natural gas measurement equipment
- In business since 1985
- Located in Hennessey, Oklahoma
- 28 employees

Choosing Enterprise Solutions:

- Using Enterprise Solutions since July 2006
- Previously used Peachtree
- Switched to Enterprise Solutions because parent company wanted all subsidiaries to be on the same accounting program

Implementing Enterprise Solutions:

- Fully up and running with Enterprise Solutions in less than one month
- Implementation support was provided by the Finance Director at the parent company who was familiar with QuickBooks
- No need for an investment in training as the Finance Director remained on-site for a few weeks to answer questions and ensure that everyone on the team was comfortable using the software

Benefits of Enterprise Solutions:

- Staff members feel that Enterprise Solutions is significantly more user friendly than their prior solution so it is much easier for them to complete their work than it was before
- Enterprise Solutions increases work efficiency because it takes a lot less time for users to find the information that they are seeking
- The Accounts Payable clerk has noticed a significant improvement in her ability to track and document her work compared with the prior solution
