

QuickBooks® Enterprise Solutions Delivers More Functionality with Greater Flexibility

“Our former program was very rigid. It made it quite difficult to correct past errors, like an account that was set up in the wrong location or an account that had been given the wrong number. Enterprise Solutions is a lot more flexible.”

Catherine Herber
Controller
Maico Industries

Customer Profile:

- Structural steel fabricator that modifies steel beams for use in building construction
- In business since 1995
- Located in Ellsworth, Kansas
- 70 employees

Choosing Enterprise Solutions:

- Using Enterprise Solutions since 2004
- Previously used Peachtree Complete Accounting
- Switched to Enterprise Solutions to get software that is less rigid and makes it easier to perform simple tasks, such as changing an account number or moving an account
- Selected Enterprise Solutions over other mid-market applications due to its ease of use, its significantly lower cost, and the ability to easily find and hire people experienced with QuickBooks

Implementing Enterprise Solutions:

- Transition to Enterprise Solutions was very smooth—after some planning time the actual conversion was completed within a month
- Implementation required no outside help
- No need for an investment in training as most of the firm’s employees had previously used QuickBooks

Benefits of Enterprise Solutions:

- Now can have multiple users working in the product simultaneously, whether they are in the office or at a remote location
- Much easier to get information out of Enterprise Solutions than it was with Peachtree—reports can be customized to show exactly the data they are seeking, and the drill down feature allows them to see the underlying detail quickly
- With the flexible user permission settings, they have full control over what company information each employee can and cannot access
