

QuickBooks® Enterprise Solutions Delivers Better Performance at a Lower Price

“I completed the implementation of Enterprise Solutions myself. I went to a training session right before I purchased it and that was it. I hadn’t even seen the program before trying to set it up, but it was very easy to get up and running.”

Sherry Johnson
Finance Director
Thurmond McGlothlin Inc.

Customer Profile:

- Provider of oil testing and measurement services
- In business since 1947
- Located in Pampa, Texas
- 50 employees

Choosing Enterprise Solutions:

- Using Enterprise Solutions since 2004
- Previously used a DOS version of Great Plains for which support was being discontinued
- Switched to Enterprise Solutions because it was cost prohibitive to move to a current version of Great Plains—and because Great Plains did not serve the company’s needs well
- Selected Enterprise Solutions over other mid-market applications because of its user-friendliness and due to the positive recommendations that the firm received

Implementing Enterprise Solutions:

- It was very easy to get up and running with Enterprise Solutions—especially compared with the prior solution
- No outside implementation support was required
- No need for an investment in training since it took very little time for employees to learn how to use the software, particularly key tasks like invoicing

Benefits of Enterprise Solutions:

- Enterprise Solutions saves time by allowing all the necessary information to be viewed on just one report instead of needing to run multiple reports
- Google Desktop Search, which is included in Enterprise Solutions as an optional feature, allows users to easily locate customer records and invoices with only a check number
- Tech support is very helpful and addresses any questions or issues that arise
