

QuickBooks® Enterprise Solutions Fuels Big Gains in Efficiency

“Enterprise Solutions is probably the most user-friendly software I have been involved in using. I recommend it to everybody.”

Helen Watson
Owner
Watson's Petroleum

Customer Profile:

- Provider of fuel pump repair services to gas stations such as 7-11 and Wawa
- In business since 1980
- Located in Hampton, Virginia
- 13 employees

Choosing Enterprise Solutions:

- Using Enterprise Solutions since 2005
- Previously used Peachtree Premium Accounting
- Switched to Enterprise Solutions at the recommendation of the firm's IT consultant to get software that is better able to handle a large data file with multiple years of transactions
- Selected Enterprise Solutions over a custom-developed system due to the significantly lower cost and greater reliability

Implementing Enterprise Solutions:

- Able to start using Enterprise Solutions immediately after purchase—while historical data was still being imported
- Implementation required no outside assistance
- No training was required to get started due to staff's prior experience with Peachtree and the fact that they found Enterprise Solutions so easy to learn and use

Benefits of Enterprise Solutions:

- Now able to retrieve and assess key management data from Enterprise Solutions using less than half the number of reports it took with Peachtree, saving time and increasing efficiency
- Strong inventory functionality allows technicians in the field to access price levels and build estimates on their own without distracting office or clerical staff
- Flexible user permission settings enable employees to access the data they need to do their jobs—while preventing them from accessing sensitive company information
