

Intuit® Warehouse Management ES

powered by AccuCode

Get Greater Visibility

Know what you have and where it is, all in real-time. Track inventory in multiple locations without a problem.

- Track inventory by warehouse
- Transfer inventory between warehouse locations
- Receive/Pick by warehouse
- Build assemblies by warehouse
- Maintain bay/row/bin locations in each warehouse (optional)

Keep Your Customers

Don't lose customers to warehouse or inventory errors – Warehouse Management ES helps avoid stock-outs, customer service issues and lost sales.

- Fast cycle counting by location, instead of a full physical
- Put inventory on hold
- Commit inventory for an order
- Works seamlessly with QuickBooks ES

Save Money

With real-time visibility of inventory information, you can carry the right amount of inventory and eliminate waste. You can create process efficiencies in your warehouse with bar codes and add-on wireless mobile scanning devices. It helps minimize mistakes, and increase efficiency.

- Web access from many locations with no setup required
- Barcode inventory wirelessly and with label creation
- Minimize mistakes and increase efficiency

Catch Mistakes Quickly

Identify which customers received a recalled lot instantly and correct problems quickly.

Track lot and serial numbers on your inventory

- Easily track the lot: from vendor to the customer sold to
- Easily track dates for inventory shipped by serial number

Gain Control

Get an accurate reading of changes from real-time information. Invoices are sent immediately and reduce dependencies on manual data entry.

- Allows the warehouse to make entries for inventory without giving them access to Enterprise Solutions
- Empowers your warehouse personnel to take control
- Real-time & accurate updates of inventory transactions

Always know what you have, where you have it, and how to get it to the customer.

Reduce overhead, lower inventory costs, and tighten up your order cycle with Intuit Warehouse Management ES. From Jacksonville to Juneau, Warehouse Management ES accurately tracks your inventory from warehouse to warehouse in real-time, so you know exactly how many you have and where you have them.
