QuickBooks Enterprise Solutions Advanced Inventory

The most efficient way to manage inventory in QuickBooks. Track inventory through multiple warehouses, trucks or piles, transfer items from one location to another, and get detailed reports by location. Advanced Inventory helps you save time by tracking inventory with pinpoint accuracy directly within Enterprise Solutions.*

Track Serial numbers or lot numbers right inside QuickBooks.

Enter serial numbers or lots at the time of purchase, transfer, or sale for more reliable tracking. Also track defective lots through assemblies and subassemblies, in stock on shelves, and customer purchases.

Use FIFO costing.

Get the flexibility to track inventory using FIFO costing or average costing and switch between the two methods whenever you want.¹

Manage inventory in multiple locations with pinpoint accuracy.

Know the value and quantity of inventory in multiple locations, transfer inventory from one location to another, set up various types of locations, and track your inventory in one place – right inside Enterprise Solutions, so you don't need to install and learn new software.
