* Study conducted in November, 2008. Pricing analysis based on public information and information provided by accounting software industry professionals for installation supporting 10 users and including core accounting applications for four popular mid-market accounting solutions (excluding Sage Peachtree and DacEasy). In some cases the costs are best estimates based on a wide range of source data. Customers should conduct their own price research before making any purchase decision.

- Requires purchase of additional licenses, sold separately in 5-user increments. All users must be on the same year version of QuickBooks to access the same company file.
- Enterprise Solutions allows you to add up to one million names (e.g. customers, vendors, employees) and up to one million items (e.g. inventory, non-inventory, and service items). Some performance degradation is likely as your lists approach these size thresholds.
- Additional fees may apply. Requires Microsoft Windows Server 2003, XP Pro, or Windows server 2008. For multiple remote users, Windows Terminal Services Client Access license required for each user.
- Online services vary by participating financial institutions or other parties and may be subject to application approval, additional terms, conditions and fees.
- Included with purchase of Enterprise Solutions 10.0. With Windows XP or Vista, Adobe Acrobat 5 or greater required; with Windows 7, Adobe Acrobat 9 required.
- You must be logged into the company file to use QuickBooks Messenger.
- One user license for TrueCommerce Transaction Manager is provided at no charge with QuickBooks Enterprise Solutions. Monthly service charges still apply. The TrueCommerce Transaction Manager license includes a Business System Plug-in that provides integration to Enterprise Solutions for inbound purchase orders and outbound invoices, and one Electronic Partner Plug-in for transacting business with one trading partner.
