

CASE STUDY: Disaster Restorations

Intuit® QuickBooks® Enterprise Solutions Helps Disaster Recovery Firm Get Clients Back on Track

“We no longer have to worry about delays in access to customer information. We can pull up the information on the spot and be able to see past business transactions!”

*Kymberli Nelson
Administration
Disaster Restorations*

Customer Profile:

- Construction firm specializing in the restoration of structures and property damaged by fire, smoke, or water
- In business since 1975
- Located in Albany, Oregon
- 10 employees

Choosing Enterprise Solutions:

- Using Enterprise Solutions since early 2008
- Previously used QuickBooks Premier
- Switched to Enterprise Solutions for increased capacity to include additional customers and vendors in their system
- Selected Enterprise Solutions over other mid-market applications for its ease of use and real-time reporting

Implementing Enterprise Solutions:

- Up and running with QuickBooks Enterprise Solutions in a matter of weeks -- and training was seamless
- Customer support and software updates have been flawless and there is a quick response time to solving problems
- Simple process required to convert data from QuickBooks Premier to the new Enterprise Solutions system

Benefits of Enterprise Solutions:

- Daily tasks are performed quickly and easily, saving time and making it easier to train other employees
- Flexible reporting allows them to access the information they need for billing purposes and job updates
- Being on a modern software package enables them to grow their business while not having to worry about the system slowing down or being too limited to manage their growing base of customers
