

# Goods

Two friends. A little neighborhood store. A global perspective.

Goods co-owners Ivana Suvak and Katherine Inglis grew up over 6,000 miles apart but share a similar aesthetic and love of design. Together, they started Goods—a tiny, colorful, fragrant shop providing global handmade and fair-trade goods. The small but colorful store is located on a bustling street in Santa Monica that is becoming a growing center of culture.

“As ‘shopkeepers’ we get to know our customers personally—they inspire us and we hope the reverse is true as well.”

When it comes to QuickBooks, both Katherine and Ivana view it as a big part of why they’re successful. “We love the Mac compatibility, the customizable sales receipts, the search features, the reports, the inventory tracking, and so much more. We love what it helps us do.”
