

Get back to focusing on your clients—not your software.

Trust ProSeries for an easier season.

7 Reasons to Make the Switch to ProSeries:

- 1 Maximum Reliability** There were no eFile system outages during critical filing periods over the past 4 tax years (2014, 2013, 2012, 2011)*.
- 2 Tools You Love** such as a familiar data entry method showing forms in use, plus the ability to track status and monitor balance due or refund amount.
- 3 Easy to Use** with Federal & State integration, plus 25 time-saving features such as the Missing Client Information Tool means you'll speed through returns faster.
- 4 Easy to Budget** with customizable 1040 and Business packages that are fractions of the cost typically associated with high-end professional software. Call for transition pricing.
- 5 Easy to Get Right** with automated calculations and 1,000+ diagnostics to help you catch errors before the IRS ever sees the return.
- 6 Easy to Learn and Get Started** with data conversion services, quick training videos and new user specialists to help get you ready for season. Plus, we guarantee it!
- 7 Easy to Get Answers** 74% of customers who used self-service support in tax year 2014 didn't have to call in to support**. Plus the program includes U.S.-based technical support. Should you prefer to call

When: Various throughout the year Register here: <https://taxpro.intuit.com/proseries/>

Join us throughout this season for various online product demonstrations, as well as Q&A panels with customers who have made the switch to ProSeries recently. There's no better way to get the answers you need from ProSeries than to ask colleagues who have already gone through the transition. And they will be joined by a ProSeries product expert to help answer any other questions.
