

Intuit GoPayment Fact Sheet

Intuit GoPayment (mobilepayment.intuit.com) enables business owners to get paid easily and quickly by accepting credit card payments via their mobile phone and an Intuit GoPayment Merchant Account. GoPayment is affordable and hassle free with no contract or hidden fees nor the need to buy or carry additional hardware. With just one GoPayment account, business owners can enable up to 50 employees to use a single GoPayment account.

GoPayment is ideal for anyone who does business away from the office and wants to get paid (e.g., plumbers, carpet cleaners, door to door sales, transportation delivery, sales at festivals, and more). Though QuickBooks financial software is not needed to process with GoPayment, GoPayment transactions can easily be downloaded into QuickBooks Pro or Premier 2009, 2010 or later.

See the demo (<http://mobilepayment.intuit.com/salesdemo>)

Get Paid Quickly and Make More Money

- **Get paid wherever you are:** With Intuit GoPayment, business owners can process any major credit card at the point of delivery – away from the office on their mobile phone.
- **Payment on the spot:** Credit cards are authorized in mere seconds and funds are deposited directly into your bank account – no need to write down payment information, call into the office, process checks or chase payments later.
- **Monitor GoPayment transactions with ease:** Access Intuit's free online Merchant Service Center 24/7/365 from any PC with internet access. You can search by different criteria to view transactions made through your GoPayment account as well as manage all your GoPayment users. You can even use the Merchant Service Center to process the occasional back office transaction.

Make Credit Card Processing Affordable and Hassle Free

- **No need to carry additional hardware:** Process GoPayment on any mobile phone with an Internet browser. (Carrier service requires a minimum data plan.)
- **Easy Set-up:** Simply access GoPayment through the mobile web browser, or you can download the GoPayment application onto a GoPayment supported phone for a better user experience.
- **Simple Use:** Log in to GoPayment and enter basic card information directly into your phone or swipe cards with an optional Bluetooth card reader. You get authorization in seconds and can even email or text message a receipt to customers directly from your phone.
- **Scalable solution:** Add up to 50 employees to a single GoPayment account by simply providing them a user ID and password. Users are easily managed from the online Merchant Service Center available 24/7/365.
- **Works with QuickBooks:** Save time and increase bookkeeping accuracy by downloading GoPayment transactions into QuickBooks Pro or Premier 2009, 2010 and later.
- **Optional hardware:** Small and light to carry Bluetooth card reader/printer automatically populates credit card data in GoPayment and lets users print a receipt.

Stay Protected

- **Keep your customers safe:** Credit card information is never stored in your phone and a unique user ID and password is required to access GoPayment – sensitive customer information is kept safe. It's like using a credit card terminal.
- **Keep your customers secure:** Customers gain peace of mind because their cards never leave their sight.
- **Instant verification:** Customers are provided an instant receipt via e-mail or text message for payment confirmation.
- **Added Precautions:** Use the optional Bluetooth card reader to ensure accurate data entry.

Pricing

<i>Monthly Service</i>	<i>Fee</i> \$12.95
<i>Monthly Minimum</i>	None
<i>Discount rate for Visa, Mastercard, and Discover® Network 1</i>	Qualified Rate; Card Swiped*: 1.70% Mid-Qualified; Key Entered: 2.70% Non-Qualified; 3.70%
<i>Per-authorization Fee</i>	\$0.30
<i>Setup Fee</i>	None
<i>Cancellation Fee</i>	None
<i>User Fees</i>	None for up to 50 users

Discount pricing available for QuickBooks Merchant Service users who are adding the GoPayment process option to an existing account. Monthly service is reduced by \$10 a month and setup fee is waived.

*To qualify for this rate requires the optional Bluetooth card reader, which is compatible only with the downloaded GoPayment application.

Availability

- Intuit GoPayment is currently available. Learn more at <http://mobilepayment.intuit.com/>.

Phone requirements

- **There are two ways to process with GoPayment:**
 - **Mobile Web browser version** – Use any mobile phone with a mobile Internet browser. Doesn't matter what carrier you are on, but requires a minimum data plan.
 - **Mobile application version** – Download the GoPayment application version onto more than 40 GoPayment supported phones. There are a wide range of popular mobile phones that are supported including the iPhone and most versions of the Blackberry, and more are being added all the time. Check the GoPayment website for the latest supported phone list.
