

# Using Nero 8 to Burn a CD

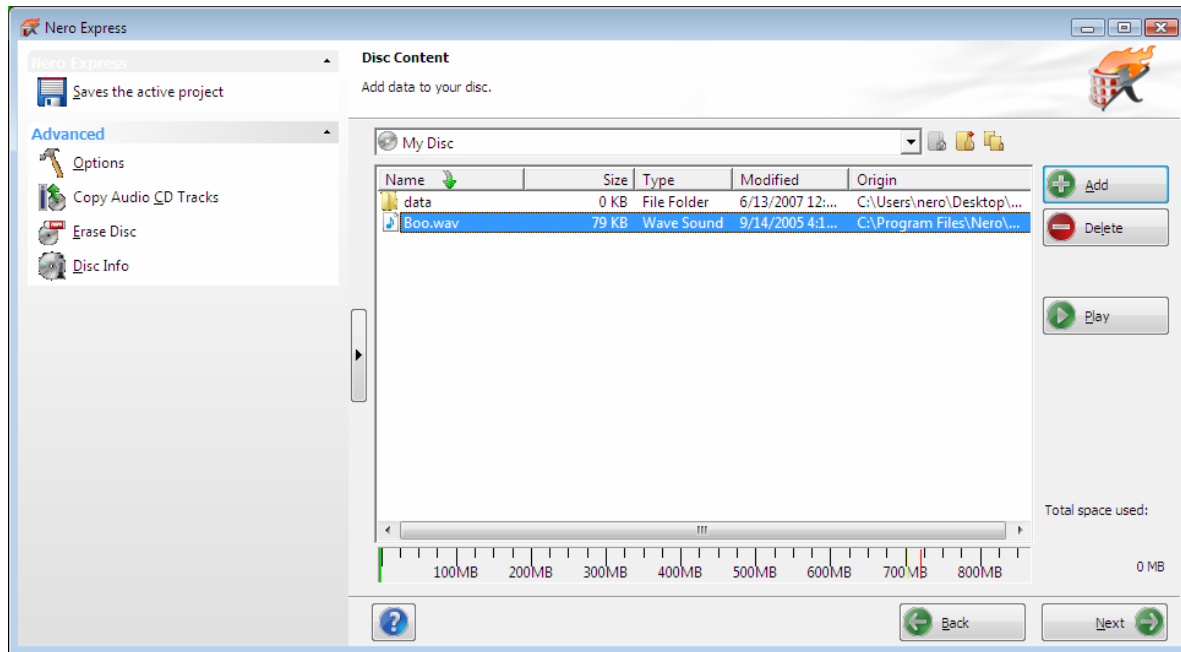

1. On your Desktop, double-click the **Nero StartSmart** icon  .
2. Select the  button and a list of applications appears. Select the **Nero Express** entry in the application list.
3. In the Nero Express window, select the **Data** icon, and then choose **Data CD**.

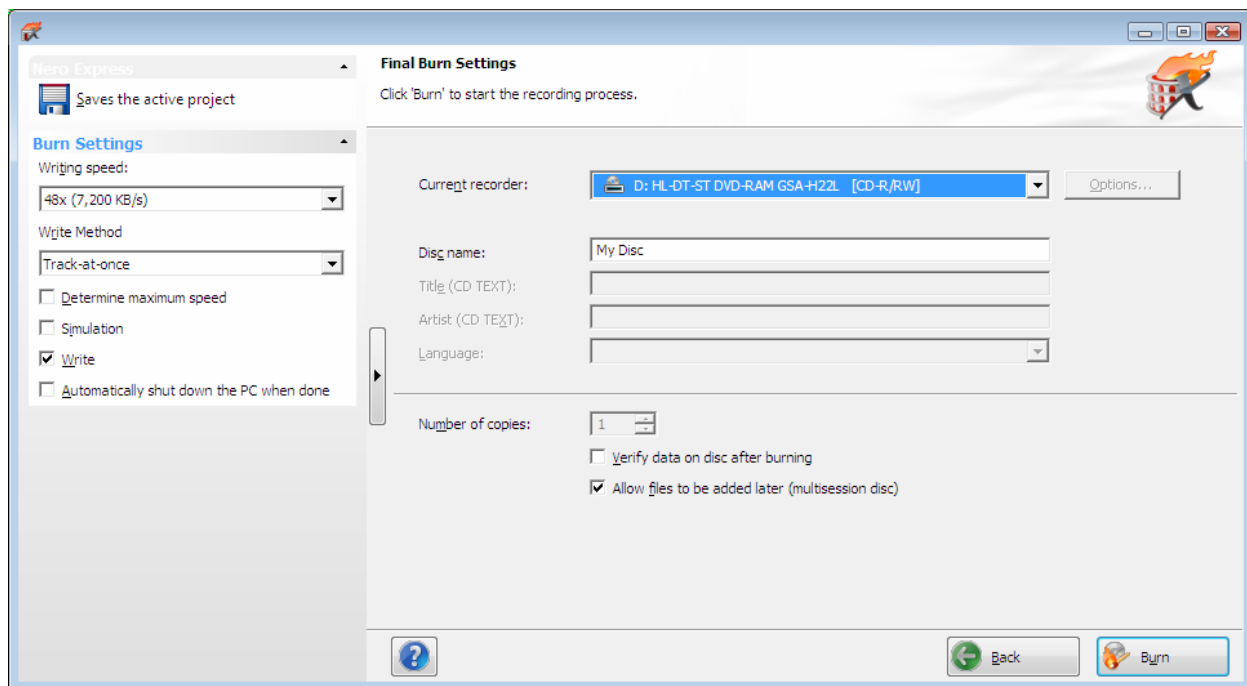

4. On the right-hand side of the following panel, click **Add**.

5. In the window that appears, select the temporary folder that contains the backup data, and then click **Add**.
6. Click **Close**.
7. On the following panel, click **Next**.

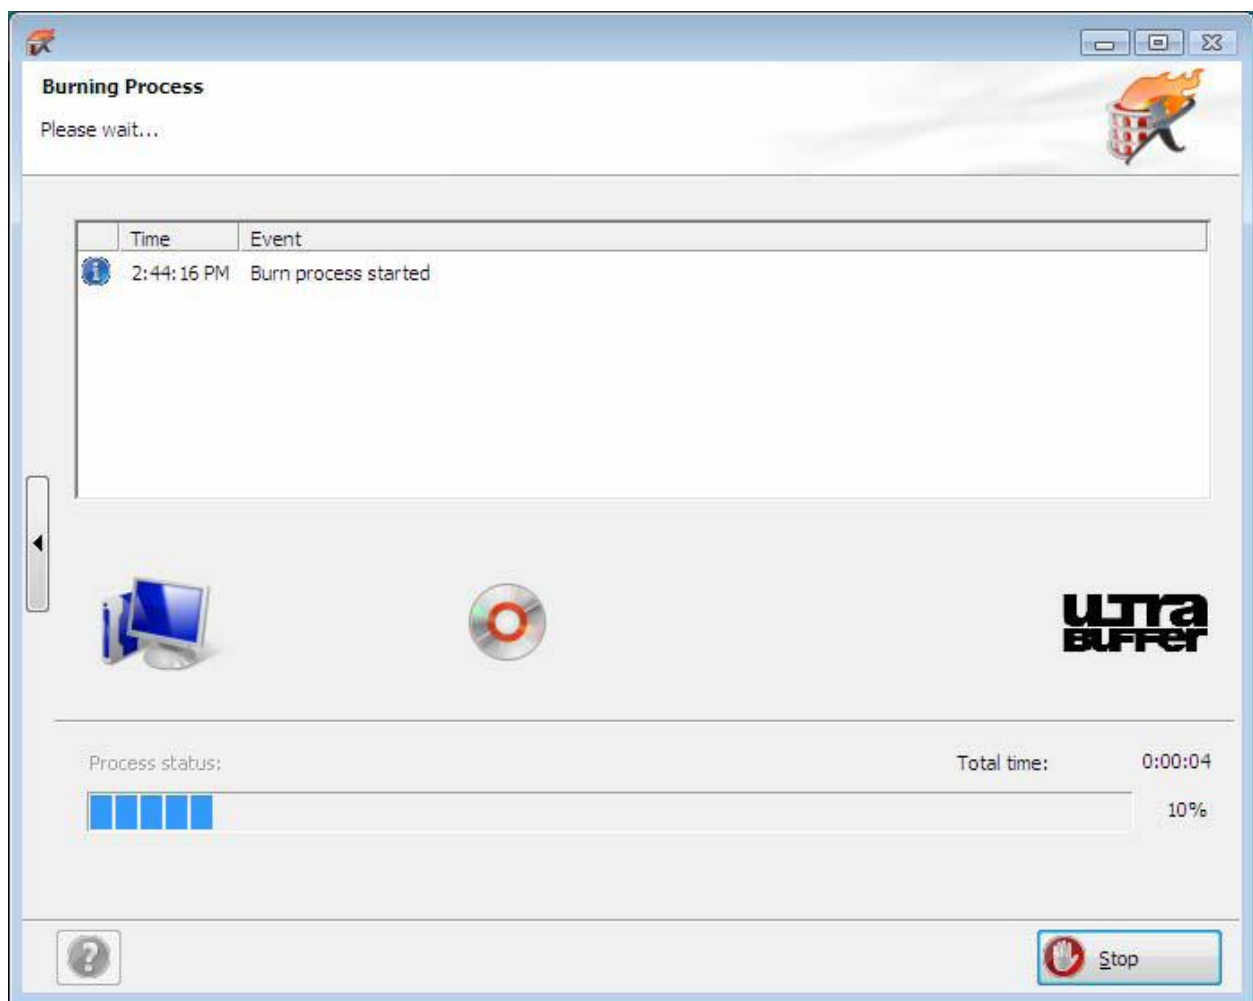

8. In the **Disc name:** field on the following panel, type your customer number.

9. Uncheck the box for **Allow files to be added later (multisession disc)**.

10. Click **Burn**.

The burning process begins, as follows. Please wait for this process to finish...

11. When finished, click the **OK** button.
